BIG DONATIONS BEHALF CHURCH ARE INCREASED

Records of Fifty-Six Years Are Shattered by the Southern Presbyterian Church.

(By Associated Press)
CHARLESTON, W. Va., May 19.—Records of 56 years were broken in the contributions of the last year to Southern Presbyterian home missions. Receipts, which amounted to \$543,431, were the largest in the history of the executive committee of home missions, according to the report of the committee to the Southern Presbyterian general assembly here. This amount exceeded that received last year by \$78,594. Special attention was called to the fact that Oklahoma, said to be the weakest synod in the assembly, and largely dependent upon home mission funds, for carrying on its home mission work, with 56 congregations which have received church erection aid, leads the church in candidates for the ministry in proportion to membership and ministers at work.

During the year the committee aided 38 ordained negro ministers. It maintains a theological seminary for negro ministers at Tuscaloosa, Ala., a college for Indians at Durant, Okla., and a hospital and orphanage in connection with Highland school at Cuernant, Ky., and 47 schools elsewhere. It supports in whole or in part, besides the negro ministers mentioned above, 905 home missionaries, including 271 unsalaried wives of missionaries.

RUSSIANS NOW PREPARING FOR HEAVY TRADE

Exports Increasing Steadily and Imports Are Showing Gains Along All Lines.

(By Associated Press)
MOSCOW, April 24.—(By Mail.) Detailed reports of development of trade between Russia and the outside world since the beginning of 1920 have been published in the soviet press, covering the period since Russia's first peace treaty was concluded with Estonia when the blockade against Russia was brought to an end. Chiefly due to lack of system and the chaotic conditions which existed during 1920, Russia exported but little in that time, the imports, however, being valued at 50,000,000 gold rubles.

But as soon as trade agencies and representations had gained a firm footing in London, Berlin, Stockholm and other industrial centers, an actual system became apparent in the foreign trade of soviet Russia, all business being carried on under supervision of the people's commissar for foreign trade, L. B. Krassin.

In 1921, Russia imported goods valued at 248,000,000 gold rubles, equivalent to \$124,000,000, chiefly coal, chemical and metal goods, foodstuffs and textiles. In the same year Russia exported goods valued at 20,000,000 gold rubles, chiefly flax and other raw materials.

England took the lead in supplying Russia with its needs last year, with Germany second. The deliveries consisted chiefly of agricultural requisites. America took third place, having supplied 16 per cent of the import goods, exclusive of relief supplies.

The soviet press concludes that, owing to the exhausted condition of the country, it is scarcely considered possible to increase the export business during the next few years, although, says one paper, an improvement in the quality of the goods may well be expected.

MEMORIAL DAY OBSERVANCE IS BEING PLANNED

Reverence to Soldier Dead Will Show Deepest Tribute on Behalf of Our Citizens.

A movement is on foot for the proper observance of Memorial Day which occurs on May 30. Again the time approaches when the nation will pay reverence to its soldier dead and we will witness anew the marching of strong columns, for the aged ranks of the men of '61 will be filled by those who survived Cuba, the Philippines, Chateau Thierry, Belleau Wood, St. Mihiel, the Argonne, and every other place and sort of service endured at their country's call. The draped flags, the muffled drums, the measured tread, the cannon's deep tones and the rifles' blaze in salute over graves covered with the flowers of spring, are but symbols of respect for those who are sleeping under the final bivouac, the real reverence, the real spirit of the occasion, exists in the hearts of the people for whom the heroes died and for whom the other heroes were willing to give their all.

As a preliminary to the solemnity of the occasion, the road leading to the cemetery has been repaired through the official action of Charles Wittenburg, county commissioner. Members of the American Legion, and the auxiliary, assisted by the Woman's Relief Corps, and others interested, are now working out a plan that will make Memorial Day of 1922 one that will not soon be forgotten. Appropriate exercises will no doubt be held, and the day will be observed in strict accordance with the occasion which it demands.
